Oman Manufacturing Facility

ShriVallabh Pittie Group (SVP) is establishing a new \$300-million plant in Sohar Freezone to manufacture a wide range of cotton yarn. The Phase 1 (\$150-million) has already started.

Cotton Yarn Rotors Unit (Phase-I) in Oman was inaugurated by His Highness Sayyid Taimur Bin Assad Bin Tariq Al Said on December 13, 2018.

- Commenced commercial production on 3,500 Rotors (Unit 1) in December 2018 and on 150,000 Spindles (Unit 2) in October 2019 at project cost of USD 150 million.
- Proposed doubling of existing capacity during FY 2021-22 at a project outlay of USD 150 million.
- Raw material procurement and Sales offtake (next 2-3 years) in place.
- Logistic and operational efficiencies arising out of operation from Sohar Free Zone.
- Low power cost, Free Trade Agreements of Oman with USA, Tax free Zone
- Equipped with latest automation and technology
- Low cost Borrowings
- Trained and Employed more than 1000 Omanis
- Access to markets that are not accessible from India due to trade barriers and political relations i.e. Turkey, Pakistan, etc.

Cotton Yarn Spindles Unit (Phase -1) in Oman was inaugurated by His Excellency Sheikh Abdullah Bin Nasser Al Bakri, Minister of Manpower, Sultanate of Oman on November 20, 2019.

The Technical Economic Viability (TEV) for the Oman Project has been confirmed by ITCOT Consultancy and the assumptions were further vetted by PwC

Oman Expansion

Particulars	Phase – I (Existing)	Phase – II (Proposed)
Capacity	1,50,000 Spindles & 3,500 Rotors	1,50,000 Spindles & 3,500 Rotors
Project Cost	\$ 150Mn	\$ 150Mn

- First major Cotton Spinning Unit in GCC Region; will promote development of Textile cluster in Oman. Promote social and economic development.
- Allocated 27 hectares land by SFZ for a period of 25 years (renewable) for the Project; Power and water availability.
- Phase 1 operational; currently exporting to China, Bangladesh, Pakistan, Turkey, Egypt, Germany, Vietnam, Portugal, etc.
- Ginned natural cotton procurement from India, China, USA, Australia, Africa etc.; Sales to China, Bangladesh, Pakistan, Vietnam, etc.
- Sales offtake in place for Yarn sales for next 2-3 years.
- Direct employment opportunity for more than 1,700 people.
- Green Project with no smoke, effluent or wastage; safe and clean working environment

- India has around 50 million Spindles capacity out of which around 98% capacity is older than 5 years. Further, around 80% capacity is older than 10 years.
- SVP Global yarn manufacturing capacities is one of the latest and the most technologically advanced on the block among its competitors. The Company's Rajasthan plant (India) commenced commercial operation in 2017 while Sohar Free Zone (Oman) plant recently started operations in October 2019
- Automation and Technology which is exclusive and none of the spinning mills have like below:
 - **Spin Connect:** Allows Controlling of every single machine from computer.
 - **Linkconer:** Has features like CAM and CAP to identify rogue spindles. **CAP** - Controls yarn layering without changing drum speed. **CAM** – The system allows a metering high precision repetitively therefore reducing the yarn waste up to three times.
 - **Loepfe Clearer:** Has additional features like Lab Pack, Polypropylene sensor and Mill Master on every drum. **Lab Pack** - Complete Monitoring done, helps in delivering constant quality and reduces the cost. **Polypropylene Sensor** - Provides maximum cleaning efficiency. **Mill Master** – Delivers online data in real time

Aggregate Spindles Capacity in India (in Mn)

MULTIFOLD GROWTH IN REVENUES

- Completed Phase 1 capacity enhancement in Oman and commenced commercial production during FY 2019-2020. Proposing doubling of existing Oman capacity. This would significantly improve revenues moving forward.
- With Oman expansion, the company will reach out to new horizons and have wider network globally.

MARGIN EXPANSION

- Expansion into high-value compact yarn product segment.
- State of the art plant, latest machines, automation and technology to lead to better productivity and margins throughout.

EXITED LOW MARGIN AND NON-CORE VERTICALS

- Exited low margin trading business and non-core verticals.

Strategic Future Outlook

Growth Ready

- One of leading manufacturer of compact cotton yarn with aggregate capacity of 400,000 Spindles and 5,900 Rotors. Further, 150,000 Spindles and 3,500 Rotors capacity proposed in Oman.
- State-of-Art textile units using latest technology for better operational efficiency and throughput.
- Strategic location in various geographies for better access to regional and global markets.

Value Added Products to drive growth

- Compact yarn facilities to boost exports, yield higher realization and alter product-mix in favour of higher margin business.
- Strategy to focus on value added products and exports to drive strong top-line growth and lead to a steady and improved margin profile in the long term.

Various incentives to boost profitability

- Company enjoys customized incentives received from the Rajasthan Government which includes VAT benefits, power tariff reductions which along with premium products, lower wastage, and higher operating efficiency significantly boosts the profitability.
- Unit in Oman enjoys various operational and logistic efficiencies including land availability, lower power costs, port infrastructure and accessibility, FTAs, low cost of capital, tax exemptions

Favourable Industry Dynamics

- India has world's 2nd largest spinning capacity and 30-35% of cotton yarn production is exported with exports having grown at a strong 15% CAGR over last 4 years.

- Due to Covid-19, the Yarn Industry witnessed significant disruptions in the production and supply of Yarn in Q1 as many Yarn manufacturing units had to shut down or operate at lower capacities. This created a demand-supply gap.
- During Q2, the Company was able to resume its operations and ramp up its production to cater to the market demand. The company witnessed an increase in its operating revenue and operating margins back to pre-covid levels.
- Company has an order book exceeding INR 50 billion for the next 2-3 years.
- Company continues to leverage its vast sales distribution network in India and overseas to selectively focus on more profitable markets.
- Company was recently registered as an approved supplier with IKEA which is a testament to the company's products, material, and services adherence to minimum environmental, social, and working conditions requirements. It also allows other members registered with IKEA to source their yarn requirements from the Company. The Company is already having registration/certification/registration for its products from Global Organic Textiles Standard (GOTS), Organic Content Standard (OCS), Global Recycle Standards (GRS), OEK-TEX STD.100, Better Cotton Initiative (BCI), Fair Trade, Supima Gold and US Cotton Trust Protocol.
